

# Alternating Half Hitch Friendship bracelet

Cut 2 strands of embroidery floss about 1 ft long, fold in half and knot in the middle to make a loop. Secure with tape to a table or board.

Cord 1 is on the left (both pink strands) Cord 2 is on the right (both blue strands). Cord 1 is the holding cord.

Use Cord 2 to tie a Half Hitch. A Half Hitch is tied by moving Cord 2 under the holding cord (pink)...

...then over it, and back under Cord 2 on the right.

Pull Cord 2 up to tighten. Keep the Cord 2 end on the right when you are done.

For the second knot, Cord 2 becomes the holding cord. Use Cord 1 to tie a Half Hitch by moving Cord 1 under the holding cord.

Flip Cord 1 over Cord 2, then back under Cord 1 on the left.

Pull Cord 1 up to tighten. Keep the Cord 1 end on the left when you are done.

Continue to alternate back and forth between the two cords to form the rest of the bracelet.
